RIDDLE ANSWERS: 1. Breakfast and lunch. 2. SWIMS 3. A river 4. In the riverbank

DID YOU KNOW?

ASPENS

Aspens like growing in Crested Butte because they grow where the winters are cold and the summer nights are cool.

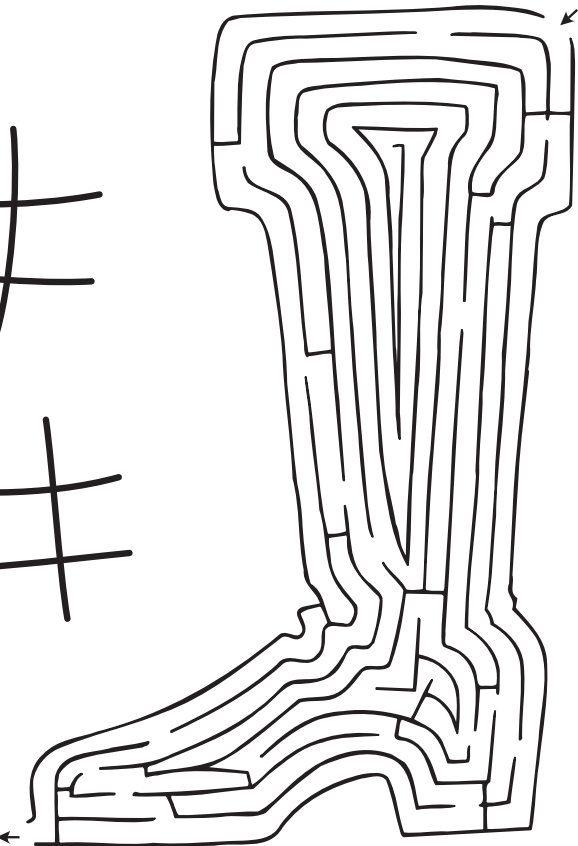

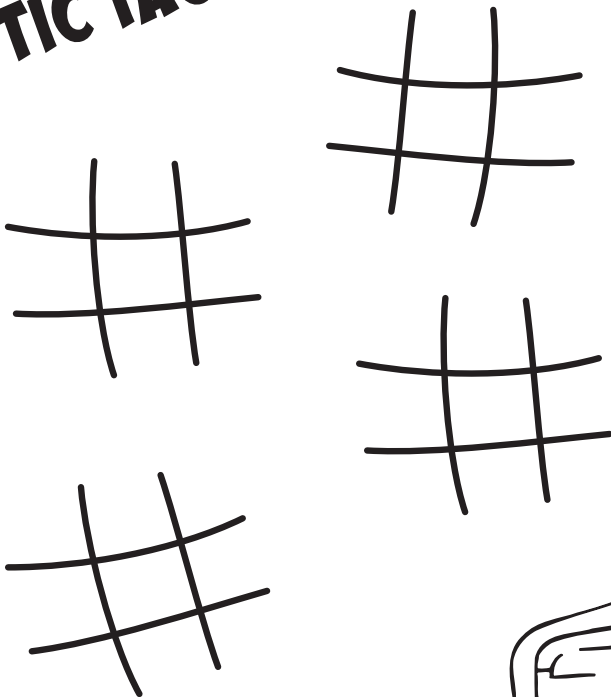

Aspens grow in colonies. A colony starts with a single seedling and spread by means of root suckers. New stems come up out of the ground and can be over 130 feet away from the parent tree.

Individual aspen trees can live for 40–150 years above ground, but the root system of the colony is alive much longer – Sometimes for thousands of years, sending up new trunks as the older trunks die off.

Aspen colonies are able to survive forest fires, because the roots are below the heat of the fire, with new sprouts growing after the fire burns out.

Aspens are sometimes called “quakies” because a stalk called the petiole attaches the leaf blade to the stem so the leaf can move like it is quaking.

SILLY SAGAS

Have one person ask for words to fill in the blanks. For everyone coming up with words, remember there is no peeking! Fill in these blanks and you'll have your own silly story.

Hints: A VERB is an action. A NOUN is a person, place or thing. An ADJECTIVE describes a person, place or thing.

STORY ABOUT MINING

Over 100 years ago _____ people came to Crested Butte to try their luck
_____ for gold and _____. Some of the miners came on horseback
and others traveled by _____. They stayed in bunkhouses, tents,
_____ and sometimes slept under the _____ stars. It was not always
easy to find the _____ treasures they wanted to find. Sometimes they would try
_____ the creeks. Other times they would hike up _____ like Gothic.
Sometimes they would just try a place that looked promising and blast with dynamite which
made a huge _____ in the ground. If you go for a hike you might come upon a hole
made by dynamite or a hole that a miner used his _____ to dig. Be careful not to
_____ into it. In some places there were big mines where miners went under-
ground to look for _____. Right in the town of Crested Butte, there's "The Bench"
mine which has 7 miles of tunnels underground. In this mine they _____ for coal
which was loaded onto _____ and taken out of the valley.

There were many small mining _____ in the area. One town was called "Tin Cup"
where in 1859, prospector Jim Taylor panned some _____ from nearby Willow
Creek. He carried his treasure back to camp in a _____ and he named the valley
"Tin Cup Gulch." At Crested Butte Mountain Resort you will find the "Tin Cup Mining Company"
where you can pan for your own treasures to take home with you.
